## PROFILE

Passionate and detail-oriented Frontend Developer skilled in HTML, CSS, JavaScript, and React JS. Experienced in building responsive and dynamic web interfaces, integrating APIs, and ensuring performance and accessibility. Eager to learn and contribute to impactful web projects using modern development practices.

## TECHNICAL SKILLS

- Java
- Spring Boot
- SQL
- JavaScript
- HTML
- CSS
- React JS

## PROJECTS

### Typy Test

Technologies: HTML, CSS, JavaScript, React

- Implemented Multiple test modes (Words, Quotes)
- Implemented real-time tracking for Words Per Minute (WPM) and typing accuracy.
- Added dynamic theme switching for enhanced user experience.
- Integrated third-party APIs to fetch random quotes and words dynamically.
- Deployed on Vercel and gained over 100 active users.

### Blogging Website

Technologies: Spring Boot, MySQL, Hibernate, REST API, Postman

- Built a full RESTful backend using Spring Boot and Hibernate.
- Implemented CRUD operations for posts and comments.
- Tested endpoints using Postman.

### Image Search Website

Technologies: HTML, CSS, JavaScript

- Developed a responsive web application that allows users to search and view images.
- Designed a responsive and user-friendly interface using CSS for better accessibility.
- Ensured optimized loading of images by implementing pagination or lazy loading.
